SOFTWARE ENGINEERING / PRODUCT BUILDING / CAMPUS COMMUNITY

Abuja, Nigeria | +234 913 334 3147 | goodluckkassa6@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

EDUCATION

Nile University of Nigeria - B.Sc. Software Engineering
CGPA 4.90/5.00 (First Class) | Abuja, Nigeria

Expected Nov 2027

SELECTED EXPERIENCE

Campus One - OneClub / Lead Full-Stack Engineer **[LIVE] [GITHUB]** **Apr 2026 - Present**

- Lead development of OneClub, the club-services product within Campus One, designed around ~18 student clubs and a university community of ~12,000 potential users.
- Built role-based workflows spanning club discovery, membership and dues verification, event proposals, approvals, announcements, feedback, reporting, and administration.
- Integrated Campus One OIDC and role mapping across React/TypeScript, Node.js/Express, Supabase Postgres/storage, and Vercel/Render deployments.

BrandDrive Systems Limited / Junior Backend Developer (SIWES) **[WHITEPENGUIN]** **Jul 2026 - Present**

- Contribute to WhitePenguin, a preschool-management platform serving 200+ schools in Nigeria, through feature improvements, regression testing, bug fixing, client QA, and release verification.
- Debugged offline/synchronization and production issues involving IndexedDB, build failures, email workflows, and deployment checks across pre-production and production environments.

ORGbyte - Keepdots / Lead Backend Engineer **Jun 2026 - Present**

- Lead backend development for a private address-verification product, designing session, consent, secure signal-upload, scoring, and administrative API flows.
 - Implemented HMAC verification, upload-token flows, append-only ledger records, scoring-engine integration, and backend testing in a TypeScript/PostgreSQL microservice architecture.
-

LEADERSHIP & COMMUNITY

AWS Student Builder Group / Social Media Lead **Aug 2026 - Present**

- Lead content planning and social strategy for a student cloud/technology community, coordinating event promotion and ongoing community content.

Nile University - Software Engineering / Assistant Course Representative **Jul 2024 - Present**

- Represent ~270 Software Engineering students, coordinating student-faculty communication, surfacing academic concerns, and supporting peer academic initiatives.
-

RECOGNITION

NNPC-Renaissance JV University Scholarship - Recipient of a merit-based undergraduate scholarship awarded through the NNPC/Renaissance Joint Venture.

Collective Labs Buildathon, 2026 - Best Team Lead; OneClub awarded Most Impactful Solution and later became part of Campus One.

TECHNICAL TOOLKIT

LANGUAGES TypeScript, JavaScript, Python, SQL

ENGINEERING React, Next.js, Vite, Tailwind CSS, Node.js, Express.js, REST APIs, TypeORM, PostgreSQL, MySQL, Supabase

DELIVERY Git, GitHub, Postman, Swagger/OpenAPI, GitHub Actions, Docker, Vercel, Render, Nginx

AI WORKFLOW Claude for coding, debugging, technical planning, and agent workflows
